Who are we?

Hello, welcome and thank you for reading our first article! Here is where we will be updating General Strike members, the community and individuals about the going ons in our local San Diego chapter.

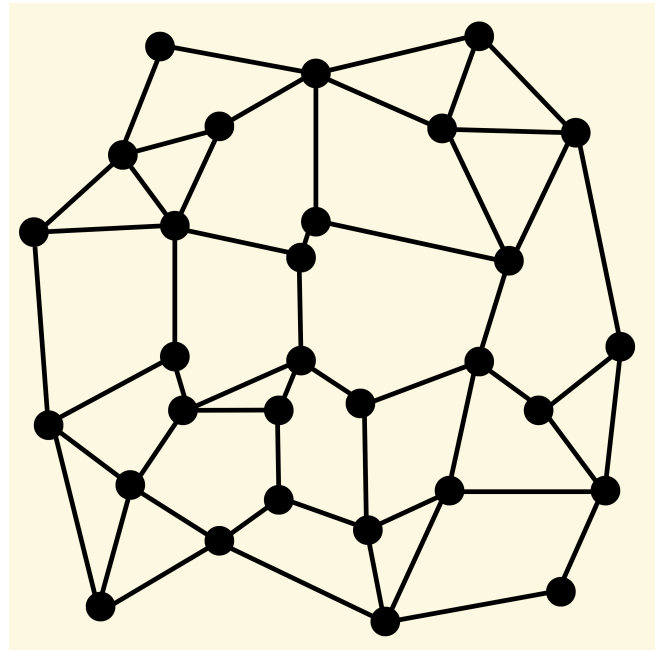

General Strike San Diego chapter began early in 2025 in response to the lack of action of elected officials in regards to the new Trump regime. GSUS as a whole started in 2022 in New York. The movement has grown from coast to coast. As a movement we understand that contacting our elected officials no longer works, boycotts do not go far enough, protesting

is no longer effective. We must strike! We must strike as a collective and a coalition.

GSUS San Diego is doing just that, coalition building. We are attempting to bridge the gap between different organizations with our coalition building meetings each month. As a society, we must learn to lean on one another and not reliant on a system that bleeds the worker dry.

Decade after decade, administration after administration, policy after policy, our lives have worsen. The contradictions of capitalism are painfully obvious at this point. As a collective, we must build a system outside of capitalism, imperialism, colonialism and fascism. A system that works and helps the people and not the wealthy few at the top.

Turn a moment, into a movement! Join GSUS or any local socialist organization.

“WE’VE VOTED, WE’VE PROTESTED, AND STILL, THEY IGNORE US. OUR GOVERNMENT REFUSES TO MEET OUR BASIC NEEDS WHILE THE BILLIONAIRE CLASS HOARDS WEALTH AND POWER. OUR LABOR IS OUR GREATEST STRENGTH AND WHEN WE STRIKE TOGETHER, WE WILL WIN.”
